

GableGotwals lawyer updates book

By: Journal Record Staff ◉ March 8, 2017 0

TULSA – Jeffrey A. Curran, a shareholder with GableGotwals, has released a new update to his book *Expert Witnesses: Motor Vehicles and Accident Reconstruction Cases*.

This updated Thomson Reuters book provides a resource for attorneys regarding motor vehicle or accident reconstruction cases. The new revision provides practical guidance on the use of technology when litigating an automobile or accident case.

"We are living in the Information Age," said Curran. "Each year, technology advances far beyond what anyone predicts. Because technology is always evolving, the book needed to be updated."

Curran's legal practice focuses primarily in product liability, insurance defense, commercial litigation, and trademark and copyright litigation. Curran's co-author, Kurt Meaders, is a partner at Meaders & Lanagan in Dallas.
